I am not very intelligent or original !!
So, lets just copy things. Main game is that
I am learning HTML + Javascript, CSS.
So, is it not that we concentrate on
just that ? So lets cover the main
points:

① Login page!

② A page with images and text stating
  the web page's agenda !

③ A page that shows
  L> table
  L> graph

④ User form to submit data.

⑤ Notification on the header
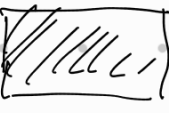

⑥ Burgers that expand/colapse
  on the left.
